

Mounting kit upgrade for the BR/BI/BL/BP series tanks

We are pleased to inform you that the BR/BP/BL/BI series of tank mounting kits has been updated with the introduction of a new support with a special design. This change has been made following the need of constant improvements of the quality of our products, adapting them to the technical equipment of the new vehicle ranges.

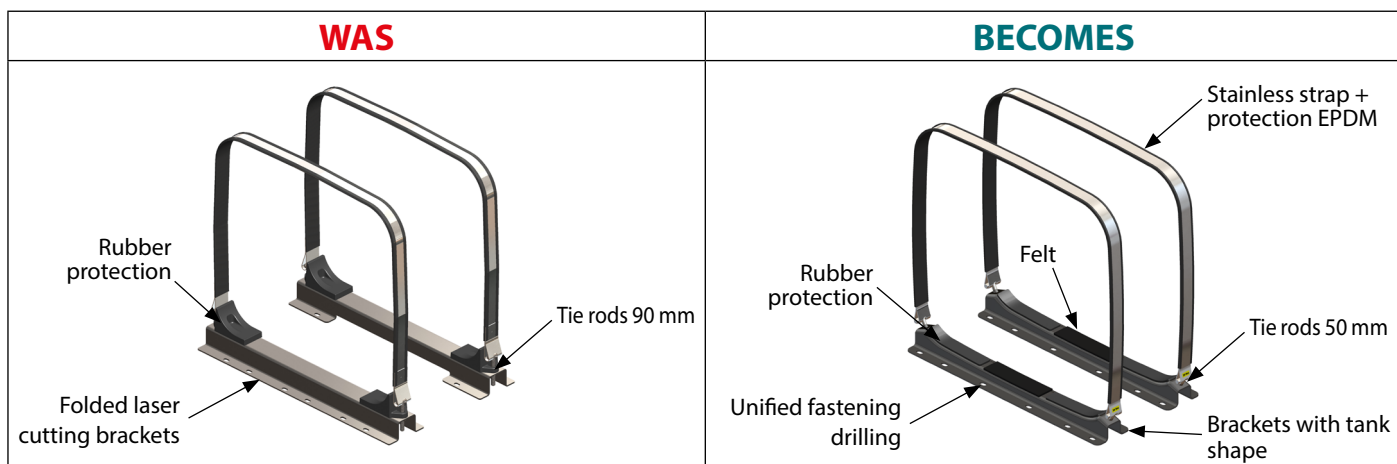

WAS:

135903BRRX0
135903BIRX0
135903BLRX0
135903BPRX0

BECOMES:

135903BRRX1
135903BIRX1
135903BLRX2
135903BPRX1

Rear cab kit BR series
Rear cab kit BI series
Rear cab kit BL series
Rear cab kit BP series

The bands are not compatible with the previous ones.

The old codes are placed at the end of the series until the stocks are completely exhausted. The transition times will therefore vary depending on the model.

The spare parts codes also had to be changed as indicated on the respective catalogue sheets:

BR series:

Link:

[Data sheet](#)

BI series:

Link:
[Data sheet](#)

The new drilling allowed us to integrate the perforations of the new frames recently introduced on the market, thus avoiding the need to manage specific supports or even worse having to drill the frame.
